

Large Power Relay

CHINT® Automotive is an automotive relay manufacturer and supplier in China. We have been specialized in automotive relay over twenty years. CHINT® Large Power Relay especially used for Pre-heating function which rated current reach 150A. Our products supplies for almost all brand of Chinese truck, Daimler & John Deere with OEM quality and competitive price. We look forward to

becoming your long-term partner in China.

	Large Power Relay	Product Specification Intro
		ZTV-23 Series
Description		
<p>CHINT® Large Power Relay especially used for Pre-heating function, and the product is all sealed. Color in black or gray.</p> <p>High performance pre-heating relay, and full sealed to avoid the water to enter, which could up to 150A in rated current. A special substitute product for TECO product.</p>		
Electrical Specification		Application:
Rated Working Voltage: 12V/24V		
Rated Current: 150A		
Normally Open (N/O)		
Isulation Resistance≥100MΩ (500VDC)		
Pull-in Voltage:≤8.5V or 17V		
Release Voltage: ≥1.2V or 2.4V		
Life Endurance: 100,000 cycles		
Working Temperature: -40℃-65℃		
Accord with RoHS, ELV, QC/T413-2002
